

Official notification of water – wells Planning

As Iran is known as a dry or semi- dry land, so proper exploitation of these wells is an important subject. Many wells are made with no permit operation, so majlis has recently approved an article to identify the water- wells controlling.

This law consists of one article and 7 notes. This law was notified officially by the head of Majlis.

Guaranteed price for Purchasing from gardening products

The head of rural Cooperative association announced: “The final guaranteed purchases for gardening products will be inform by this week.

Mr. Sajadi said: “we are almost ready for guaranteed purchasing of Date and Raisins. But because of their good market, it seems they have no willing to this transaction.

Only 140– 150 tones of Date has bought in 2 provinces. Our main aim is Creating a safe market and presenting farmer’s loss.

The national document of Mechanization in agriculture sectors will be executed

In this volume, “Damparvaran” engages in National document for agricultural mechanization which is the basis of expansion for this industry.

This report Consists of challenges, Complexities and historical weaknesses of our mechanization methods and also defeating ways with these problems.

Up to now we hadn’t such detailed report from agricultural mechanization problems in Iran.

The rural Copperative association is Chinese

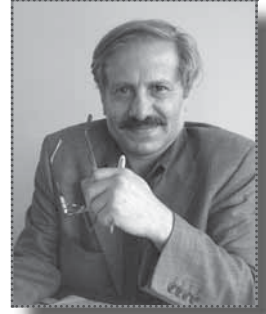

Chinese government has stablished rural Cooperative association in 1975. Each of these associations act in several industrial and productive fields with 90 to 4100 employees. Mostly they work in their own rural or city.

The value of these association`s productions had recieved to 354 milliard dollars in 1986, it means 31,7 percent of total industrial production. They Cause increasing rural`s incomes, various and new jobs, preventing immigration to big cities.

Now, These are charge of 40 percent of gross production and employing more than 130 million people in Chinese.

How much will be share of agriculture sector from 6,000 milliard tomman by governmental income?

As it's announced in unofficial news, targeting Cooperative law has postponed For one month later. By increasing the price of Sources energies, it is expected a 20,000 milliard tomman income for governmental sector. Our government is legally bounded to specify it to: -10.000 milliard tomman to weak and needy level of society. -4,000 milliard remains as governmental budgetary. -6,000 milliard to industry, mines, agricultural activities.

The editorial in chief of "Damparvan" has been seriously asking from many reporters, Malis deputies and other economists that: "How will be paid the share of agricultural sectors from this Considerable income?" But unfortunately there was found no answer!

Why our governors and economists never announce obviously about this 6,000 milliard tomman's planning? Here, our poultry investors, farmers, gardeners and agricultural producers should ask themselves what really is going on? It's as a fact that inappropriate accomplishment of this program will Cause many Complexities for our agricultural producers and farmers!

Approval of the law for increasing optimization by majlis and notifying to agriculture ministry

"Damparvan" in it's first part has published this law's articles in detail for informing farmers and investors. This law will be basis of agricultural expansion in Iran.

Many of formations and pioneers were unaware of its approval by Majlis, some of grand formations tried to make some changes, but it had no result. This law consists of 35 articles and 36 notes.

The new responsibilities for ministry of energy, especially water department

In new Commission, Ministry of energy Should control shallow waters in a range of 10 milliard cubic meter and Completing the construction of 70 dams, and also Creating irrigation nets for 400,000 ha lands.

Besides the Ministry should prevent outflowing of one milliard cubic meters water from our Country.

Finally increasing the basis of optimization and controlling Country's waters is the most important duty of this ministry.

In the name of GOD
