

President tells; “For more mechanization coefficient we should continue national productivity of tractors, while importing second-handed tractors which are safe and sound.

### **New suggestions for thinking about poultry crisis in Iran**

“Damparvaran” has compared our poultry industry with European poultry industry. He describes that how much difficulties and worryness that our poultry producers in Iran have? While its just viceversa about European producers!

Editor says it`s just because of interferences of our state in poultry industry issues. The reporter of “Damparvaran” represents this suggestion as below:

“It`s better that maintaining the original materials acted by free exchange without interference of state forces; Bazar will determine the range of price. While state should support 4 more poor groups of society by specifying them credit cards for buying protein products; so productivity will not decrease and consequently There will be lower fluctuation of prices.
