

1393 (18–20 Feb 2015). Poultry implement manufacturers, and the producers of animal drugs and additives, processed foods will attend there.

## In Agriculture sector, no success in global Interactions without private setor

We see in many meetings that the competent authorities of Jihad-e-keshacarzy ministry (agriculture ministry) are eager to have relation to developed countries. They emphasize we need to transfer the advanced knowledgs and technologies to improve the production in many fields. They belive that we need to use new scientific evidents in animal husbandry, gardening, agronomy, aquaculture production and etc. On the other hand, we see there is not appropriate support on private sectors that activate to transfer new technologies in the country. It seems there is a paradoxical behavior on authorities in agriculture ministry.

Private sector investors has entered in interaction relations before the gocernment, and in spite of their laudable courage we cannot see any serious action to improve the global intractions.

## Special investing in infra – structurals in agriculture sector in 1394 (2015) budget

M. Bakhshandeh, the Planning and Economy assistant of Agriculture Ministry announced: 23% is increased to the budget of agriculture sector for the next year.

He added, \$ 1/5 billion is allocated for 550/000 hec in khoozestan and Ilam proviencies to ready them for cultivation. Also \$ 500 million is to revive 46/000, hec in Sistan proviencie.

M. Bakhshandeh Said about irrigation networks in 12 border proviencies by allocating \$ 8 billion that will provide by both of mnistries, agriculture and power in 4 years. Also, for installing pressurized irrigation systems \$ 4,4 billion is allocated.

## Why specialists say Unspecialized words

It seems that it is not supposed to unspecialized ideological observations in agriculture and animal husbandry change to real prospects. And some of authorities in current government, aggravate the matter mistakenly or deliberately.

In a visit to Babol – kenar line poultry that organized by public relation office of Jihad-e-Keshacarzy ministry, some specialists hinted to unreal objects. For example one of them said” just now 3% of chickens are produced by this farm and it is predicted to share about 15% of global market in this way.

He added: “according to currencies instability, we forecast to provide 100% of domestic needs”. This resource had told: “Iran is the 8th country in producing line poultry in the world”. Another person who is in an upper grade has said: “Till 1380, (2001) this complex has supplied a bout 85% of domestic needs, but now it is decreased to less than 5%.” We think these subjects are not true and the responsible must reobserve their opinions.

## Improving calving in Cows by kalagen company in Iran

Kalagen company in cooproration with “world wide sires” has an essential role to transfer the technology, training and genetics of cows in Iran.

In a summit which was held in Dec, 2014 in Kalagen company, Mr Cliff Marshal one of resp-  
oncibles from “world wide sires” attended and wished to enhance the quality of genetics in Iran. Eng. Salary, the founder of ka agen company said that since 24 years ago he had many activities in breeding animals. Another activity of kalagen company is the genomic tests on the cows in Iran that have sent to USA.
