## 802 million dollars agricultural export during 2 first months of this year

955,000 tones agricultural products, valued about 802, million dollars have been exported. Comparing with same case in past year has increased about 4\5 percentage.

780,000 tones agricultural products, with value of 767 million dollars have been exported. Due to this report, the volume of agricultural products export is 13/91 percent of total non-petroleum exports.

The most agricultural export belongs to gardening poultry, cultivating shares during this period. The foreign trading balance of agricultural market had a negative rate of (479,310,000 dollars), which has been increased of 40,360,000 dollars in comparing of last year figures.

## State Payment for 10 Million Tones wheat to national farmers

In these volumes of “Damparvaran“, Main Article is specified to state buying wheat from farmers. Mr. Mansoor Ansari, Editorial in chief of this professional magazine evaluated that the state has bought near two million tons wheat from farmers. He evaluates: “Considering good raining, state supports for seed – reformation process, adoration irrigating system, it was estimated more production volume. But the state will buy only 10 million tones , it will be paid 1240 tomans per kilo wheat , and total expenses for storage , transport and extra fees will be reached to 13/000 milliard tom mans . Of course this will be paid during some month later.

So, Editorial in chief estimates because of states economic difficulties, its logic that this payment will be fulfilled up to 6 month.

Mr. Mansoor Ansari analyzes that this delay payment will causes some good reasons for the state oppositions unions, they will stimulate farmers easily, Here Editor suggests that It should be clarified to farmers , and not allow to be abused by opposition of state , they should not be allowed to convert this productive subject to a political one .

The Editor suggests that importing this huge volume of cash about 3/2 billion Dollars , will cause a grand inflation in society , so its recommended gradually pouring to farmers is a safe solution and in this case farmers will deliver their products with more confident.

## Level of pressured Irrigating systems is about 5104 ha farmlands in first months of year

This level in past year was about 91.807 ha farmlands.

Drainage and network reticulation irrigating has been planted in 827,432 ha lands in two first month of this year. All of initial infrastructure of lands have been operated on 5000 ha lands in 2 first months of year, and the most level of activities have been operated on traditional lands about 336,565 ha farmlands.

The deputy of soil-water in Agricultural ministry has planted and reformed the irrigating channels, too. While this figure reaches to 103,884 ha farm lands and 1020 ha farm lands operations is well done in 2 first months of this year as well.

In the name of GOD
